First name: William

Last name: Waggoner

Organization:

Title:

Comments: I William Waggoner. I am against any water drilling by any of our creeks as of the new law of WOUTUS, which describes significant Nexus which is the scientific method. I think all 109000 acres of land that has creeks within them, should be protected until the significant Nexus has been done to every Creek on the West side of South Dakota state. We will also include the Saccett VS EPA Supreme Court case (2023)also include Virginia VS the EPA Supreme Court case,( 2022) South Dakota constitution 46 -1-3. We the people own the water rights and will appropriate the water as necessary. and Included in this argument Parks VS Cooper Supreme Court case is South Dakota.
