Title:

Comments: Add a new section, 2355, to Forest Service Manual (FSM) 2300 - Recreation, Wilderness, and Related Resource Management, Chapter 2350 - Trail, River, and Similar Recreation Opportunities, which would provide that climbing is an appropriate use of NFS lands (proposed FSM 2355.03, para. 1)-including in wilderness-when conducted in accordance with applicable law and Forest Service directives and consistent with the applicable land management plan (proposed FSM 2355.03, para. 4); that a climbing management plan be developed, as funding and resources allow, for climbing opportunities in wilderness, and for climbing opportunities outside wilderness where the District Ranger determines that climbing is causing adverse resource impacts or use conflicts (proposed FSM 2355.21); that fixed anchors and fixed equipment are installations for purposes of section 4(c) of the Wilderness Act (16 U.S.C. 1133(c)) (proposed FSM 2355.32, para. 1); that a Forest Supervisor may authorize the placement or replacement of fixed anchors and fixed equipment in wilderness based on a case-specific determination that they are the minimum necessary for administration of the area for Wilderness Act purposes, including primitive or unconfined recreation and preservation of wilderness character (proposed FSM 2355.32, para. 1); that existing fixed anchors and fixed equipment in wilderness may be retained pending completion of a Minimum Requirements Analysis, as funding and resources allow, that determines they are the minimum necessary to facilitate primitive or unconfined recreation or otherwise preserve wilderness character (FSM 2355.32, para. 5)
