Title:

Comments: Offroad, 4WD, Jeeping have been a part of the NF close to 80 years. It has become part of our heritage and culture. It gives families access to see parts of our country and its natural beauty that they would not normally have an opportunity to see. It gives my neighbor a registered quadriplegic access to the backcountry. We need trails not roads. The Jeep is as American as it gets. Please keep our 4WD trail systems intact.
