Title:

Comments: I fully support extensive year round closure as described for Granite mountain and Bear Basin. However, as evidenced by the actions of snowmobile riders over the past 20 years of skiing backcountry, Brundage and Bear Basin: these riders pay NO attention to ANY signs . Off trail and highmarking 2 feet away from signs on the cat skiing areas, tearing up the groomed Bear Basin trails and high marking up both the side country Brundage area and even high marking up "kickback" run in Lakeview bowl. Law enforcement is required
