Comments: After working over 10 years on bolting ban on the BNF in Montana you have prove your have no skills for solving this issue so back off (I've also been working on this issue since the mid 90's when I talked to the chief of the FS at a family meeting in Missoua). I won't send the maximum of 50 files from the last 25 years because I no longer will waste my time. I will continue to make my own decisions passed on my skills from 50 years of climbing.
