Comments: While there are many concerns with this plan, the main one to me, is that wilderness, is limited and disappearing rapidly. The natural world needs to exist as it is. It's value is immeasurable. To make it open to all the "recreation" possibilities, is to destroy it for the future. Unbelievably regrettable to think about. Please leave the wilderness alone!!

See below:

Wilderness is an endangered landscape. Less than 3 percent of land in the Lower 48 is protected as Wilderness, and it is under threat, including from rapidly escalating recreation pressures.

Any specific proposals for permanent fixed anchor installations in Wilderness must be subjected to public notice and an opportunity for public comment pursuant to the National Environmental Policy Act.

Please think of a future without places that include masses of people. The numbers "game" needs to be turned around so that we celebrate the quiet places once again.
