Comments: We already have designated 'Wilderness' areas protected so-called Old Growth Forests! Near me in Montana are large swaths of forest lands so designated. So any further protections enacted are placing the environment cultists 'rights' over the majority of us tax paying citizens who want to recreate, lumber, and otherwise use our forests too. I would be ok with some type of ruling to identify and 'save' some number of large tree specimens per se a 100 acre parcel but to otherwise mandate no cutting or forestry mgmt is unacceptable!
