Title:

Comments: Dear Sir:

When visiting Designated Wilderness please leave nothing but foot prints. Not climbing gear such as pitons driven into rocks for climbing a cliff face. Carry out every single thing you carried in.

Please protect Wilderness character above all. Leave absolutely nothing behind within a wilderness area. It is the law.

And, I insist the Forest Service enforce the law clearly stated for all to see in the Wilderness Act of 1964.

Sincerely,

James Woods
