Comments: I am so excited to see that the Forest Service is drafting a management plan for the Old Growth forests of the nation. As a person who strives to follow the teachings of Christ and to be a good steward of God's Good Creation, I believe in the physical, mental, and spiritual benefits that old growth forests provide to not only humans, but all of God's creation. I urge the Forest Service to draft a robust management plan that prolongs the lives of our old growth forests, protects the creatures that call these forests home, and prevents loopholes that would allow the logging industry to take advantage of this important environmental resource.
