Comments: It is good that the Forest Service has a management plan for the Old Growth forests of the USA. As a Christian, I believe in the physical, mental, and spiritual benefits that old growth forests provide not only to human beings, but to all of God's creation. I urge the Forest Service to draft a management plan that prolongs the lives of our old growth forests, protects the creatures that live in them, and prevents loopholes that would allow the logging industry to take advantage of this important environmental resource.

Thank you for the time spent on this management plan and the continued care of God's creation.
