Comments:

I submitted a formal comment during the Nez Perce-Clearwater Forest Plan

Revision process and I support the Preferred Alternative. Thank you especially for your recommendation for a 150-foot corridor along Divide Trail #738 to allow for mechanized use. I am excited to be able to mountain bike on this beautiful backcountry trail again and look forward to the opportunity long-distance bike packing on this iconic. There are too few of these types of remote and long backcountry trails that are accessible on mountain bikes. Allowing a greater variety of trail users to enjoy these areas will increase support and advocacy for their continued preservation. Nice Job!

Sincerely,

Trent Baker
