Title:

Comments: I will not vote for anyone I find out has in any way reduced the availability of anchors. I will vote for anyone who I find out supports legislation which allows the climbing community to install anchors as the community finds fit.

Environmentalists keep going further left. Just like DEI, folks are tired of being told that they are the problem, whether that be a climber or someone marginalized by DEI quotas.

I am stuck paying taxes to people who spend their time banning the outdoor application of an Olympic sport! You don't deserve my money!
