Title:

Comments: I am a climber, as well as a backpacker and day hiker and person who enjoys the outdoors. I want to ensure that the safe and responsible use of fixed anchors within National Forests and other Wilderness areas remains available to the climbing community. I advocate for the responsible use of Wilderness areas and respect their multiple uses. Fixed anchors are, in my opinion as an outdoor enthusiast, a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years and ensure that fixed anchors for climbing can be replaced and maintained in designated Wilderness areas. This will ensure continued safe practices. Thank you for your time.
