Title:

Comments: I am a climber and a professor at Arizona State University. Fixed anchors are a crucial component of safe and responsible outdoor recreation.

I want to ensure the safe and responsible use of fixed anchors in Arizona remains available to the climbing community.

I respect and advocate for the responsible use of Wilderness areas and strongly believe that fixed anchors are a key element of sustainable Wilderness experience for climbers. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated Arizona Wilderness and national forest areas.
