Title:

Comments: It is my opinion that wilderness is for wildlife, not humans, not human recreation. Science allowed, yes, to study how to make things better. Recreation opportunities: absolutely not and therefore NO permanent fixtures of any kind.

The agencies' primary duty is to protect Wilderness in its natural, untrammeled state, and the Wilderness Act's ban on installations can only be overcome in rare administrative circumstances where the installation is necessary to protect Wilderness in its natural, untrammeled state.
