Comments: Climbing should be celebrated and is an outdoor activity established well before the 1964 Wilderness Act. Anchor and bolt maintenance, as well as continued bolting for routes that are under development, is CRITICAL to safety of climbers and search&rescue teams alike. It is unreasonable for federal agencies to create new guidance policies prohibiting Wilderness and National Park climbing anchors across the country when they have allowed, managed, and authorized fixed anchors for decades. We want future generations to enjoy safe, well-bolted and well-maintained routes!
