Subject: potential area closures - snowmobiles

Good afternoon!

I am writing to express my wishes to keep the areas affected by the Great Burn open - most specifically Hoodoo, Surveyor, and Williams Lake. I live in Idaho but am a backcountry rider that travels and rides all over Idaho and Montana. I have ridden Hoodoo and Surveyor and was in love with the terrain and beauty it offers. It is challenging and amongst some of the most breathtaking scenery, and I hope I am able to continue enjoying it for many years to come.

I feel like snowmobilers are responsible and take good care of our natural resources. We leave a very small footprint.

Thank you for your consideration!

Vicki Isakson
