Title:

Comments: Hello. My name is Denise Harnage and I have been a climber for over 8 years. Here are my comments on project FSM 2355 Climbing Opportunities #ORMS-3524.

Restricting the establishment of new routes to "existing climbing opportunities" on non-Wilderness lands is unenforceable and will create confusion amongst land managers and climbers. Non-Wilderness climbing management policy should maintain opportunities for new anchors unless and until analyses determine climbing should be restricted to protect cultural and natural resources.

Regards,

Denise Harnage
