Comments: As a citizen and outdoor enthusiast I am very concerned about potential new or additional limitations on access to areas. I am an avid hiker, backpacker, and overland let as well as dispersed camper. As a tax payer and voter I will be very disappointed should these activities be significantly impacted, including access to trailheads with vehicles (e.g. adding miles to a hike due to roads being closed).

Additionally, the economic impact of myself and others who spend money at business in town near or on the way to our recreation areas would likely be very unfavorable.

I am a member of groups that volunteer to care for these areas and spend as much time maintaining or cleaning up the areas I recreate in as I do enjoying the natural beauty. Please do not send the message that we enthusiasts are not important and our contributions are worthless.
