Title:

Comments: I would request the Forest Service to include the Transportation System (roads and trails) to be added as a key focus area in the planning process. I use all types of lands in the western states for camping , riding off-road motorcycles, dual sport motorcycles, mountain biking, fishing, hunting and hiking. These activities all require forest road and trail access. The more open roads and trails the better the overall experience is for everyone.

Thanks

Chris Napolitano
