Comments: It would be helpful to many folks if additional recreational permittees would be allowed to operate anywhere for the sole purpose of meat hauls to support dyi hunters. Often the permitted outfitters in an area will decline to do a meat haul for a non client as they view us as competition in "their" hunting areas. I know there are local folks that would like to provide meat haul service and get paid for it and there is a need for it. Other recreational permitees should be able to have their contact info posted to fs website as backup if the outfitter declines.
