Title:

Comments: I am a long time Lawrence County resident, and I strongly object to the the Golden Crest Exploration Drilling Project. I do not believe this project is in alignment with the public's interest in this area, as there are significant environmental risks and concerns. The project's proximity to cherished public trails and multi use areas is also of great concern. As someone who regularly uses this area, it has a very direct impact on my community. Please do the right thing and represent the public's best interest by protecting our lands and water.
