Title:

Comments: To whom it may concern,

As a small business owner that services OHV units in these areas, I urge the Forest Service to include the transportation road and trail system as a key issue in this planning process since it is a central theme in all of the current five key areas, and it should be included as a key focus area that undergoes a robust analysis to better inform the development of a broad range of alternatives would deprive the process of an important element.

Sincerely,

John Younger
