Comments: To whom it may concern,

As a rock climber and outdoor enthusiast, I would like to support increased access to wilderness areas in a safe, respectful manner, that allows to preserve the integrity of wilderness areas. However, Restricting and banning fixed anchors and bolts, will undeniably increase the risk of injuries to climbers and outdoors lovers, like me, and even decrease accessibility to wilderness areas. Please redirect those banning resources into creating projects to increase wilderness safety and awareness at Climbing areas.

Thank you!!
