Comments: To whom it may concern;

Please enhance and strengthen the latest Old-Growth Protection proposal.

These trees are the very last of their kind and will never exist as such for hundreds or a thousand years and are precious in ways we may not even be aware of.

On Current proposals;

\* No Loopholes.

\* Strict consequential enforcement

\* Rigorous review and consideration of any

Threat at all from other projects or activity nearby.

\* The law should make clear that the overriding

Intention is to protect the Old-Growth trees at any cost.

The current proposal is inadequate and this is the time to be clear about what the mission is;

To protect and defend our forests!

Thank you for considering my comments;
