First name: howard

Last name: houseknecht

Organization: Kingfisher Construction

Title:

Comments: Now is the time for all people in leadership positions regarding the protection of the remaining old growth forests managed by the U S Forest Service to chose the path of ecological health for the planet. May we be responsible stewards of the the forests and all the life forms that are dependent on the well being of these living treasures! Of course all forestry practices should be ecological and not mono crop tree plantations!

Thank you for your consideration.

Howard A Houseknecht
