Comments: As a climber, I want to ensure the safe and responsible use of fixed anchors in Montana wilderness areas. I respect and advocate for the responsible use of these areas and believe that fixed anchors can be a component of a sustainable future for wilderness areas. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in these areas. To reverse this precedent takes away access to inspiring and valuable experiences for the climbing community and other wilderness visitors.
