First name: Lenka

Last name: Matejkova

Organization:

Title:

Comments: There cannot be any rock climbing done if there are no anchors (natural or fixed) and if there is no protection and no bolts. Climbing community is the most protective community valuing the great outdoors. It's a same thing as establishing and rebuilding hiking trails. We, the people, need our trails, and we, the climbers, sometimes need anchors and bolts. Please let the climbers keep climbing.
