First name: David

Last name: Faulstich

Organization:

Title:

Comments: For the safety reasons, and to encourage conservation through inspiration by participation, I recommend:

The continued use of existing fixed anchors without further review, unless there are site-specific resource concerns;

Allowing the maintenance of existing fixed anchors without prior approval, unless there are site-specific resource concerns; and

The authorization and placement of new fixed anchors in the wilderness with a simple and efficient permitting process that does not require an MRA, as is current practice under NPS Director's Order 41.

Creation of a Study Group with participation from the camp industry in the development of any guidelines related to climbing activities in the wilderness or wild areas.
