First name: Darren

Last name: Verploegen

Organization:

Title:

Comments: It appears the new rules outlined in the draft would significantly limit a very important form of recreation in the wilderness and unduly increase the danger and risk to those involved. I regularly contribute to many volunteer organizations that manage and maintain fixed anchors both in and outside of wilderness and it would be a true shame to see that process hindered. Please ensure that the strong history of safely climbing and exploring these areas can continue without excessive process and paperwork.

Thanks,

Darren Verploegen
