Comments: Hi,

Sport climbing across this country has lead to some of the most life changing and memorable experiences of my life. It's made me develop my relationship with nature and led me to trips to various state and national parks across the country. These include Devil's tower, Big Horn National Forest and many others. Regulations prohibiting bolts would make climbing less safe and much riskier with potential for removing an entire group of people from discovering the outdoors entirely. I think that would be really tragic and I urge the USFS to reject this proposal.
