Title:

Comments: I urge the USFS to spare our last remaining old-growth trees and ancient forests in California's Klamath, Mendocino, Rogue River-Siskiyou (California-Oregon), Shasta-Trinity, and Six Rivers National Forests. I strongly believe that conserving and reestablishing mature and old-growth forests, watershed restoration, and improved fire and fuels management can all be achieved in ways that not only benefit plants and wildlife but some of our most challenged communities as well.
