First name: Isaac

Last name: Schaal

Organization:

Title:

Comments: As an avid climber and lover of the wilderness, I am opposed to the proposed legislation. I believe that fixed anchors are a safe, ethical, and important part of climbers legitimate use of our natural lands. They are non imposing, barely noticed, and a necessary part of rock climbing, which is my personal favorite way to enjoy these lands. Please take into account my and other climbers opinions about this important issue.
