Title:

Comments: As an avid recreationist that uses public lands for multiple outdoor pursuits, I oppose the ban on allowing fixed anchors for wilderness areas. There is already precedent for this use in our public lands. These fixed anchor bolts are a necessary safety item as outdoor recreation has surged, it will increase the tax payer cost with increased recuses if prohibited in the future.

Please continue to allow bolting for fixed anchors and climber safety of our public lands.

Best,

Matt
