Comments: Please stop the climbing anchor prohibition in Utah's climbing areas. Climbing is a very low impact sport that grants access to the outdoors to many many people. the barrier to entry is comparatively low which allows people from all kinds of demographics and socioeconomic status' to enjoy the outdoors. Appreciation for nature, and love of these spaces is imperative to developing the mindset to protect these places for our collective future. Please Please stop this process and allow climbing to continue in the safest way possible, through fixed bolts and anchors.
