Title:

Comments: This sounds crazy, but climbing has brought so much joy and meaning to my life. It is the reason why I value our public lands so much. Climbing has made me want to live a sustainable life and protect our public lands for future generations. Banning fixed anchors would make climbing impossible or incredibly dangerous. This would be devastating to the climbers who recreate and value our public lands. Rock climbing on wilderness areas allows me to stay fit physically and mentally. It brings me to new places and allows me to meet and emphasize with others from around our country. Please don't take our outlet away from climbers. Thank you for your time,
