Title:

Comments: I write because of my concern regarding the fixed protection proposal. I am a climber and I want to continue using USFS and Wilderness Areas by means of safe and responsible fixed protection. I believe that fixed anchors for climbing can and ought to be used, maintained, and replaced in designated Wilderness Areas and the USFS. Please revise your climbing guidance in accordance with the practice and precedent of the last sixty years in these public lands. I respect and advocate for the responsible use of Wilderness Areas and believe that fixed anchors can be a component of a Wilderness experience that is sustainable. Thank you for your attention to the matter.
