Comments: The American Camp Association strongly recommends:

*The continued use of existing fixed anchors without further review, unless there are site-specific resource concerns;

*Allowing the maintenance of existing fixed anchors without prior approval, unless there are site-specific resource concerns; and

*The authorization and placement of new fixed anchors in the wilderness with a simple and efficient permitting process that does not require an MRA, as is current practice under NPS Director's Order 41.

*Creation of a Study Group with participation from the camp industry in the development of any guidelines related to climbing activities in the wilderness or wild areas.
