Comments: "As a rock and mountain climber, backcountry skier, canyoner and hiker who has been active in our National Parks, National Forests and Wilderness Areas for the last fifty years I want to ensure the safe and responsible use of fixed anchors in [Wilderness/national forests] remains available to the active outdoor community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated [Wilderness/national forest] areas."

Thank you.
