Comments: Hi there,

Please don't ban bolting in the wilderness. Of all the issues facing the wilderness right now, this isn't one. If you're going to ban bolting then you'd need to also ban driving to public lands. This is unnecessary, and something that wasn't an issue that the government has turned into an issue. It's also completely unenforceable. It's only going to create confusion and lead to tension and conflict.

Please don't do this.
