Comments: As land and resources managers,I ask you to look at the original intent of the Wilderness Act,and the ramifications of your proposed regulations for fixed anchors in wilderness areas.What is needed is an open dialog,and a collaborative arrangement to enhance,and maintain wilderness values.I personally have enjoyed our National Forest wilderness areas since 1973,are realized they are far from pristine.Many have signs of past mining activity, historic cabins,and cattle grazing in fragile mountain meadows.My question is do bolts,and fixed anchors actually detract from non-climbers enjoyment of our wilderness areas?I think not.Thank you for letting me comment.
