Comments: Hello, I am an active voter and citizen of Nevada. Please do not ban all anchor installations for climbing/canyoning/mountaineering. This is an issue I care deeply about and it will effect how I vote. Not to mention, the implications and effects this sort of ban would have. Climbing has been a part of this country forever. This anchor installation ban will cause people to get hurt and it will cause people to die, please do not let this happen.
