Comments: We need to emphasis responsibility. I understand that there is some damage with the bolt holds, but it is for safety. We need to encourage all to visit these nature areas. Litter is a huge issue and there was a code to pick up everything and take it out when I went to watch someone climb. A lot more trash left with the climbers as they picked up litter on the trail in. I am against the bolt ban. Yes, even from the flat state of Nebraska.
