Comments: Please drop any plans to allow tree cutting/harvesting in all areas of old-growth forest in the U.S.

There is no valid reason to cut old trees except for greed and for financial gain. That does not benefit the public or the future. Our children and grandchildren, if there are any, need to have those few remaining tracts of old-growth forest to cherish as many of us do presently. Leave the old-growth forests for us to enjoy now and for the future. I don't want cutting of any trees on our national forests, but absolutely hate the idea of cutting old-growth trees. Please don't do it!
