First name: Will

Last name: Brizzolara

Organization:

Title:

Comments: Limiting the amount of places climbing bolts can be placed will lead to climbing be significantly more dangerous as people will have to place unreliable gear and it'll make the barrier to entry for climbing both from a monetary and skill view so much higher. Because of this more people will get injured or even die climbing. It also goes against long traditions of climbing in America and the precedent of past policy.
