First name: Matthew

Last name: Midgett

Organization:

Title:

Comments: Please consider the aesthetics of any buildings, walls, stairs, or other infrastructure in the forest -- using architectural and engineering designs which enhance the traditional forest experience (i.e. log picnic pavilions, natural stone walls and steps, etc.).

Please whenever possible use natural materials (stone, rough-milled wood, unfinished concrete, etc.) to provide visitors with a 'classic' rustic ambiance.

Thank you very much.
