Last name: Mays
Organization:
Title:
Comments: Please protect old growth forest by removing elm, poplar and other aggressive and invasive trees. Replace them with nut and fruit trees. Use oak, hickory, cherry, etc. Plant blueberry, blackberry, raspberry, grape and muscadine groves. Contract to build deep ponds adjacent to streams for electricity, fire protection and fish. Find geothermal hot spots and contract to build wells for energy and hot water ponds. open these areas to the public. Do research to determine what other fruit and nut trees and bushes to plant in our forest. Thank you!
