Comments: The Forest Service needs to be replaced by people who are intelligent, care about the actual forest and animals, and who are honest and follow rules...which are there for a reason and for a purpose.....If this organization of fools cannot understand that, then they should all be replaced by people who can. Do not continue to play the discrete, secret games of wording confusion to get things done illegally. Be honest. Write exactly what is intended, where it is intended. Very simple ..So what is your problem?????? Let me guess... trying to deceive , be dishonest, playing games with the forest, the animals, the increase in noise, pollution, and death for many animals that depend on protection from what you are trying to do illegally. Do your damn job correctly or leave it to someone who will.
