Comments: I support the prohibition, Restricting the establishment of new routes.

I also encourage the secretary to promulgate additional rules like the NPS proposed on prohibiting fixed anchors.

I support the prohibition of all fixed anchors on all NFS land not just wilderness.

Fixed anchors, bolting and leaving climbing trash degrades the landscape scaring rock face and scenic views.

Fixed bolts drilled into the rock causes moisture to enter causing premature degradation to the formations.

Protect these valued rock face treasures, more strict enforcement is needed. More regulation more enforcement officers, more permits. This is not a safety issue as many will argue fixed anchor free climbing is safe reliable and good for the landscape.
