First name: Michael

Last name: Johnson

Organization:

Title:

Comments: To whom it may concern, by banning perminate anchors, peoples lives will be at risk. Many love the outdoors. But for many more. Its a way of life. Its is the reason they wake up in the morning, the reason they work all week and the reason depression hasnt swallowed their hope. These people will not stop traveling to these places. Climbers will not stop climbing and canyoneers will not stop canyoning. By passing a law that puts lives in danger is unreponsable and does not solve any issues. We need to educate people. Thats how we move foward

Sincerly

Michael johnson
